## Summary

I'm a motivated and fast learner with over two years of experience applying both creative and technical skills in development and design projects. I enjoy turning ideas into functional, user-friendly digital experiences and am recognized for my attention to detail and problem-solving mindset. I work well in collaborative team environments, communicate ideas clearly, and manage my time effectively to meet deadlines. Whether designing intuitive interfaces or writing clean, efficient code, I stay organized, adaptable, and focused under pressure. I also have experience managing project assets, maintaining structured workflows, and improving work based on feedback. Overall, I bring a positive attitude, strong work ethic, and a balanced blend of creativity and technical expertise to every project I take on.
